

EMERGENCY DECONTAMINATION SERVICE

Safety, Knowledge and Experience — The GFL Advantage

As businesses, institutions, industries and communities across the country navigate the unforeseen challenges of COVID-19, we understand that this is an uncertain time.

Rest assured, you can call on GFL 24 hours a day, seven days a week, to help get you back on track. With extensive experience, first-class industry expertise and highly-skilled professionals, our trusted emergency response teams stand ready to deliver immediate, effective, and above all safe intervention and solutions.

DIVERSE SOLUTIONS. DISTINCT BENEFITS.

Now more than ever, it's crucial that we do all we can to protect those around us. We know that, like us, the health and safety of your customers, partners, and employees remains your number one priority.

Our decontamination experts deliver comprehensive solutions that will help restore healthy, safe work conditions to your business, facility or site. Our wide range of services can be tailored to your requirements, including:

- Deep cleaning
- Pressure-washing, internal and external
- Specialized hazardous and non-hazardous waste removal
- Vacuum truck services
- Confined space entry

Our response teams are equipped and ready to provide on-site decontamination services in a wide range of environments. We support hospitals, paramedical services, offices, warehouses, factories and more in decontaminating equipment and work spaces.

Some of the many distinct benefits of choosing GFL for your decontamination needs include:

- Scheduled or urgent service
- Stringent protocols and standards
- WHO-approved disinfectant
- Off-hour service to minimize human interaction/ business disruption
- Mandatory PPE including full face respirators with cartridges for all our personnel

At GFL, we pride ourselves on our ability to offer customers total solutions and start-to-finish management. Extensive industry expertise and experience allow us to adapt our response to deliver you the most effective course of action.

FROM COAST TO COAST, WE'VE GOT YOU COVERED

Our strategically located network of emergency response operations reaches across Canada, so we can provide our customers with **local coverage nationwide**. GFL has specialized assets across the country available and **ready to deploy 24 hours a day**. Our equipment meets all regulatory compliance requirements relating to HAZMAT emergency response and coverage of Emergency Response Plans (ERPs).

PERFORMING TO THE HIGHEST INDUSTRY STANDARDS

GFL's emergency response services are assessed and verified to **TEAP III** and **CERCA** national industry standards in emergency preparedness and response. We employ some of the most highly-skilled responders in North America, trained to the highest level of hazardous material emergency response including **response to infectious substances**. GFL responders follow the National Fire Protection Association (NFPA) 472 risk-based approach for selecting PPE, factoring in present or potential hazards, likelihood of exposure, consequence of exposure, and overall determination of risk.

GFL routinely works closely with **first responders** and is an active member of Responsible Distribution Canada (RDC), the Chemistry Industry Association of Canada (CIAC), and Transportation Community Awareness and Emergency Response (TransCaer). Our operations are also frequently assessed by regulatory agencies such as Transport Canada.

With decades of experience in emergency response and a highly-trained workforce, you can count on GFL to deliver safe, secure, round-the-clock decontamination solutions, at any time. **For more information, please contact us 24/7 at 1.877.244.9500.**
