Career Opportunity

Manitoba Environmental Industries Association (MEIA), in collaboration with Red River College Polytechnic, is pleased to announce the Registered Energy Advisor Training program.

We need you to be part of Canada's green economic recovery with the Natural Resources - Canada Greener Homes Program.

Energy Advisors are needed in Manitoba to help Canadian homeowners save on their energy bills.

Why become an Energy Advisor?

- Pursue an **exciting, diverse, and dynamic career** in energy efficiency for housing
- **Gain skills and expertise** in energy modeling software and customer service while helping homeowners and builders make informed decisions when choosing energy retrofits for their homes
- **Help Canada build back better and greener** by becoming part of the growing skilled energy efficiency workforce and help reduce greenhouse gas emissions
