The table below is set up to assist you in taking an inventory of all fixtures that should be sampled. List fixtures (faucets, water fountains, etc) that can be accessed by children for drinking water, or will be used to provide drinking water to children. Attach additional pages if needed.

Location of fixture					
Type of fixture (fountain, sink, other, etc.)					
Number of children who have access to the fixture for drinking water					
Age of the youngest children who generally have access					
Have the fixtures been tested before? If so, when?					
Is the testing post-mitigation?
